FROM THE PRES:

Hello everyone. I hope you are all well an fine. We had a great turnout last month. With a lot of renewals. Please note all the following items

Memberships lables: the current labels were printed before the last meeting when I received a bunch of renewals so I have gone over an they are correct. Any discrepancies please email me. A mark has been put on if you are in arrears

Memberships renewals as it has been stated for awhile now this is your last news if you have not renewed. So please get your renewals in an be current.

Meeting cards: YA!! After 3 yrs we now have meeting cards again. Last dates were confirmed following the last meeting each news will receive one.

Library: young Benjamin said is going to try this. So lets give him a month to organize and sort through things so he knows whats what. Thanks for volunteering

Classifieds we have two spaces available for business cards so a good way to get publicity for your self. Do consider

Show volunteers: again looking for help at the show any would be most appreciated even a hour would be great. please consider. At this point I do not know if I will be able to set up ahead I am hoping to to be able to do this. Realliy hoping I can *** WE need a education person ASAP please consider

PLEASE EVERYONE STAY SAFE & TAKE EXTRA CARE EVERYONE

8. ADJOURNMENT Motion to Adjourn 1st. by: Terry C 2nd Joe S **Motion:** carried.

9. Attendance draw won by: Carter M

Door Draw won by 1. David B 2. Elwyn J

Donation auction held **noted** Al Hynes contributed a large amount of auction book thanks Al

Reg. Auction: was held

next Meeting: **Feb. 12th 2023**

The history of the Lincoln Wheat Penny, including how to find the coin's value and prices. by Dustin Lattimer,

JOPLIN, Mo — Lincoln Wheat pennies are one of the most popular series of U.S. coins that coin collectors strive to build a complete set. Rare coins such as the 1909-S VDB and 1914-D are the “Holy Grails” of any Lincoln Wheat cent collection. Before you go down the path of building a complete set of Lincoln Wheat pennies, there are a few things you’ll need to know. “Wheat pennies are one of the two most popular U.S. coins that are collected. The other one that’s very popular is the old Morgan Silver Dollar. Between both coins, there’s a lot of varieties, so a penny is not just a penny, they’re all unique. The value really comes down to a few qualities on the coins,” said Dave Sorrick, coin expert The United States Mint first minted the Lincoln Wheat penny, or “Wheatie” as they are sometimes called, in 1909. Victor D. Brenner designed the coin under the direction of President Theodore Roosevelt, on a mission to redesign our nation’s coinage. President Lincoln was chosen as a subject for the penny to commemorate the 100th anniversary of his birth. Any wheat penny is worth at least four cents to most dealers. Given the popularity of collecting Lincoln Wheat cents, there will always be a demand for quality coins. If you’re interested in wheat pennies that are worth more money, Sorrick said you’ll need to have high-grade quality coins. “There are millions and millions of wheat pennies and most commonly they trade for three-to-five cents a piece. If you’re looking for a particular date, it can be much, much more than that. The rarest is the 1909 VDB. Those can be worth anywhere from \$700 to \$1,500 depending on the coin’s grade. Now, if you’re lucky enough to have one that’s uncirculated, particularly if it’s graded by one of the major grading companies, those alone are \$2,000 and \$3,000 coins,” Regardless of the condition or grade, many collectors do not consider their coin collection complete without the Lincoln Wheat penny. But beware — there are counterfeit Wheat Pennies floating around. So, before celebrating early retirement with your newfound fortune, it’s a good idea to have your coin collection authenticated by a reputable coin dealer. “Price guides (which you can find HERE) will give you an idea of the value of collectible coins. You can usually find those online and that would give a person an idea of the coin’s value. To determine the exact amount of worth, I would suggest you talk to a coin collector or a coin dealer. So, in terms of figuring out the value of collectible coins, such as the Lincoln Wheat penny, those are the steps I suggest you take,”

2023 Bullion Coin Bearing King Charles III's Portrait Jan 17th /23

The Royal Mint first Mint in the world to introduce King **Charles III's** official portrait onto bullion coins, Majesty's effigy appearing on the world's most visually secure bullion coin, **Britannia**, following the four innovative security features onto The Royal Mint's bullion Britannia coin in 2021, its appeal and demand globally have soared. Britannia coins are exempt from Capital Gains Tax (CGT) for **UK** residents, regardless the number of coins Furthermore, gold Britannia bullion – in the form of both coins and bars – is also VAT-free. **Andrew Dickey**, “The Britannia bullion coin is globally recog-

nized across the world by investors. Its reputation as the world's most visually secure bullion coin has led to it becoming one of the most popular bullion coins produced by The Royal Mint. the design remains consistent, the 2023-dated edition begins a new chapter for his Majesty The King's portrait appears for the very first time. Bullion coins are an attractive option for many investors looking to diversify their investment portfolio due to their value, tradability, and liquidity as well as CGT exemption in the UK. Each bullion coin produced by The Royal Mint is a combination of exceptional design, craftsmanship, and the latest innovation upholding the standards of quality and accuracy that you'd expect from a world-leading mint.”

Shipwreck with mil in gold off BC coast

A LINCOLN penny with a strange "doubling" effect could be worth hundreds of thousands of dollars.

In a recent video, coin collector The Coin Guy profiled the 1958 double-die obverse Lincoln cent.

The penny has a rare double die error found on its lettering. The penny is a seemingly ordinary old coin except for the doubling effect found on the words "In God We Trust" and "Liberty." This is called a double die error, which occurs when the die used to mint a coin is misaligned. This often creates a doubling effect on coins' lettering, with words stacked on top of each other. Many double-die coins are highly sought after by collectors, but the 1958 double-die penny is one of the rarest and most valuable. "This is one of the mega-rarities of the 20th century. There are only three known examples," said Jamie Hernandez at expert coin appraiser [Professional Coin Grading Services \(PCGS\)](#). The version profiled by The Coin Guy is currently being auctioned for \$293,000 by Great Collections, while the record price for the penny is \$336,000. The three coins in existence have grades of either MS64 or MS65, which are only four and five spots away from mint condition respectively.

This 1958 penny is an extremely rare find

Two rare coins sell for \$17,800 online after bidding war – exact features to look for Josephine Fuller

While this amount may sound surprising, it's nothing coin collectors aren't used to. A single coin can go for as much as \$66,000, or even millions, depending on how rare it is. The price for this bundle started at \$100, and 42 bids later it soared into the thousands before selling. The two coins that sold were an 1893 Morgan silver dollar and a 1916 Standing Liberty quarter. As the Morgan Dollar was only minted from 1878 to 1904, these coins have become especially popular to collect. On one side, the coin carries the image of a bald eagle with wings outstretched. The other side shows a left-facing Lady Liberty wearing what is known as a Phrygian cap, circled by stars and "E Pluribus Unum." The 1893 coin is readily available in all different grades. According to PCGS the 1893 Philadelphia Mint Morgan dollars are even more elusive and can bring in more cash. The 1916 Standing Liberty quarter is said to have the lowest mintage in the series, at 52,000 coins. The front features Lady Liberty with her left breast exposed. That led to Liberty's breast getting covered by a chainmail shirt later on in the series. The back features a soaring eagle encircled by stars, with "United States Of America" across the top and "E Pluribus Unum" right under it. The year 1916 also marked the 25th and final year of the Barber quarter. According to PCGS president Ron Gruth, a new design of the coin was "impermissible under the law until twenty-five years had elapsed" and it wasn't supposed to happen until 1917. "Despite the legal limitations, the Mint began producing coins with Hermon MacNeil's new design in December of 1916,"

The two coins

that sold
